

ABSTRACT

A liquid crystal composition comprising; as a first component, at least one compound selected from a group of compounds represented by Formula (1); as a second component,
5 at least one compound selected from a group of compounds represented by Formula (2); as a third component, at least one compound selected from a group of compounds represented by Formula (3); as a forth component, at least one compound selected from a group of compounds represented by Formula
10 (4); and as a fifth component, at least one compound selected from a group of compounds represented by Formulas (5-1) and (5-2), in which each compound represented by the Formula (1) to (5-2) is defined in the specification.
